

SPECIAL INSTRUCTIONS FOR NAP ITEMS

Dear Parents,

The school has to comply with Health and Human Services requirements with regard to storing children's nap items. Currently we are having difficulty storing nap items to comply with regulations. We would like you to kindly send nap items that will fit into each child's individual bin. The nap classroom has no space to accommodate the growing number of pillows, blankets and comforters. If your child's nap items don't fit the bin and fit on the shelf the school has to return those items that are too large and exchange them for more appropriate and smaller sized items.

Here is a list of items the children can have for their nap:

- Crib sheet
- Soft sheet to cover (the classroom has heat or air-conditioning to accommodate changing weather)
- Small soft animal (**ONLY** if your child needs one to help them sleep)
- Small pillowcase (to fit all these items listed above to send them for washing on Friday)

Please remember to label all these items with your child's name to avoid mix-up of nap items.

Please look at the bin that is placed in the sign-in/out area to determine the size of items that will fit in the bin that is available to hold all the above items.

We appreciate your understanding and cooperation.

Thank you,

Dinusha Perera
Director
